CA/OCS/ACS/NESA called to provide Op Center with information on a CLASS name-check hit for an AMCIT who had requested issuance of an emergency passport for urgent travel out of Kuwait. Department informed that the name-check hit did not/not apply to the AMCIT and authorized post to issue the AMCIT a limited validity emergency passport. CONS issued the passport at 0930AM on March 20, 2003.

At 0800hrs, CONS distributed two separate Warden messages to the American citizen community in Kuwait. One message contained pre-cleared language regarding the commencement

of military action in Iraq. The other contained the texts of the Public Announcement Worldwide Caution and Public Announcement Middle East and North Africa Update dated March 20, 2003. CONS sent the Warden messages via email and fax, and paged all Wardens on their mobile phones to alert them to the existence of the messages. The messages are being posted on the Embassy web-site and recorded on the Embassy's automated 24-hour Warden message telephone recording in both English and Arabic.

At 1005hrs, AMCIT called to ask if the Embassy would be able to issue her newborn child (born on 08 March 2003 in Kuwait) an emergency passport for immediate travel even though the child has not/not yet been documented as an American citizen. AMCIT claimed she has been unable to obtain an official Kuwaiti birth certificate or apply for a Consular Report of Birth Abroad for the child. CONS agreed to issue the child an emergency limited-validity passport for urgent travel. AMCIT will come to the Embassy, Consular Section, today.

CONS booked reservations for two AMCITS (mother and minor child) to depart Kuwait for Dubai today at 1600hrs. CONS provided 7 other AMCITS (and their family members) with flight reservation information and contact details for a local travel agency able to assist in booking the tickets. These AMCITS will be able to depart Kuwait for Dubai on the same flight at 1600hrs today. One other AMCIT who had requested Embassy assistance in departing Kuwait declined to accept booking on a flight today and has decided to depart Kuwait tomorrow. All cases reported in SITREP 2 have now been resolved. No other cases have been reported at this time.
